CAREER OBJECTIVE

A dedicated team player with great multitasking skills, I am looking to work in a dynamic environment that will allow me to grow professionally while working closely with others who share similar interests.

EDUCATION

RK University

Degree Name: B.Tech In Computer Engineering **CGPA - 7.09**

Present

Rajkot, India

RK University

Course Name: Diploma In Computer Engineering **CGPA - 6.84**

08 2019 – 04 2022

Rajkot, India

Shree saint hari English medium school

Standard: 10th **Percentage - 60%**

2019

Rajkot, India

TECHNICAL SKILLS

- Figma
- PHP
- PYTHON
- REACT JS
- .NET
- SQL

INTERNSHIP

RK University

Web Developer on-site

11/2021 – 04/2022

Rajkot, India

Developed eCommerce Website with PHP and MySQL: Designed and implemented the backend of an eCommerce website using PHP, creating dynamic web pages and integrating with MySQL databases to handle product listings, user accounts, and transaction processing.

PROJECTS

Ecommerce Store Mobilemart

2023

- **Developed Backend Logic Using PHP:** Designed and implemented server-side functionality using PHP, including business logic, API endpoints, and data processing.
- **Database Design and Integration:** Created and managed database schemas in MySQL (or another database system), writing complex SQL queries, stored procedures, and handling data migrations.

Grocery Store

2023

- **Developed Cross-Platform Grocery Store App:** Built a seamless, cross-platform mobile application using Flutter, enabling consistent user experiences on both iOS and Android devices.
- **Integrated Firebase Backend Services:** Utilized Firebase for real-time database management, user authentication, and cloud storage, ensuring secure and efficient data handling.

Restaurant Management System

2023

- **Developed a Restaurant Management System in ASP.NET** Implemented basic capabilities such as menu management, order processing, and user role authentication to ensure secure and efficient operations.
- **Designed and integrated a responsive user interface:** Used HTML, CSS, and JavaScript to design a user-friendly frontend that improved the experience for staff and customers across all devices.

Attendance-System-Using-Python-with-Database-connection-main

2023

- **Developed Attendance Management System Using Python** Designed and implemented the attendance system's basic functionality, such as user identification, attendance tracking, and report production, utilizing Python's capabilities to create strong and scalable solutions.
- **Integrated Database for Real-Time Data Management:** Set up a database connection (e.g., SQLite, MySQL, or PostgreSQL) to manage and store attendance records, performed data querying and manipulation, and ensured real-time updates and accurate reporting.
